

30KW LOAD BANK

PART #: LBX1001000

RUGGED, INNOVATIVE ENERGY MANAGEMENT SOLUTIONS

FIDELITY
TECHNOLOGIES
CORPORATION

FIDELITY TECHNOLOGIES CORPORATION DESIGNED AND BUILT THE 30KW RESISTIVE LOAD BANK AS AN IDEAL RUGGED OPTION TO TEST AND MAINTAIN QUIET GENERATORS IN THE FIELD. THE 30KW LOAD BANK IS WAS DESIGNED AND TESTED TO ENDURE HARSH ENVIRONMENTAL CONDITIONS.

FEATURES & BENEFITS:

- › Includes 12', 100 Amp Pigtail
- › Wheels and Retractable Handle for Portability
- › Self-Contained with Built-In Cable Storage
- › Evaluates Generator Efficiency
- › Prevents Wet-Stacking
- › Color: Olive Drab Finish

SAFETY FEATURES:

- › Overvoltage Sensor
- › Temperature Sensor
- › Airflow Sensor
- › Overcurrent Protection

DESIGNED TO WITHSTAND RUGGED ENVIRONMENTS:

- › Sand and Dust
- › Corrosion
- › Fungus
- › Shock
- › Vibration

SPECIFICATIONS:

- › Load steps in 1kW increments up to 30kW
- › Input Power: 208/120VAC, Three Phase

OPERATING TEMPERATURE:

- › -25°C to 55°C (-13°F to 131°F)

DIMENSIONS:

- › 18.4" x 24.1" x 14.0"

STORAGE TEMPERATURE:

- › -40°C to 71°C (-40°F to 160°F)

WEIGHT:

- › 64 lbs

PROCUREMENT: TENT TLS

Through Tent TLS, ADS provides a broad scope of equipment to thousands of authorized customers around the globe. For more information contact your ADS Representative below.
